## Solar PV Canopies with Charging Stations

*Power Generating  
Architectural Net Zero  
Energy Solutions*

Duo-Gard Industries is an industry leader and innovator with over 27 years of architectural canopy experience. They provide a turnkey solution to providing solar PV canopies with charging station options. Their services include in-house design, engineering, fabrication and installation services across the United States. Their solar canopies are net zero and beyond. Not only can they produce energy to charge vehicles and light your canopy, they produce energy that you can store and use for your facility, offsetting your utility bills and reducing your carbon footprint. They have developed two standard solar PV canopy models to expedite specifying, ordering and procuring your station. Our standard models feature a modular design so it is easy to plan & to grow.

2 standard models. 4 options. That's it. Easy, straight forward, yet comprehensive.

## Dynics Industrial Solutions

*Build What You Want...  
Get What You Need*

Dynics offers a comprehensive line of large format LCD industrial signage products - the products are focused on providing high quality hardware in flexible product lines with custom integration.

Specifically, the LX Series is a cost effective system in an industrial, rugged steel enclosure with an industrial grade monitor for 24/7 runtime applications. The LX features a single or double-sided solution with heavy-duty eyebolts for ceiling mounting, a protective front lens, an embedded Intel or AMD Fusion iPC (or monitor only option), along with high performance/industrial power supplies and Solid State drives.

Dynics strives to meet customer's applications with reliable and durable products.
