

CUSTOMER ALLIANCE PROGRAM

Managed inventory saves you time and money. Our Customer Alliance Program is designed to be a collaborative supplier and customer relationship. Your ability to manage your on-site electrical inventory effectively and efficiently is one of your greatest needs. With dedicated resources in each of our branches, we can offer a customized program relative to your needs.

Your customized Customer Alliance Program will provide you with:

- Complete and concise reports
- Improved inventory accuracy
- Increased productivity
- Reduced carrying costs
- Reduced manpower requirements
- Reduced paperwork and its associated costs

VENDOR MANAGED INVENTORY

- Reduction of employee hours spent on inventory that can be reallocated for more productive and revenue generating activities
- Reduction on inventory carrying costs
- Elimination of lost materials
- Elimination of rush orders which carry additional charges
- Increased accuracy of inventory
- Accurate reports that represent inventory movement and turnover

MOBILE STOREROOM MANAGEMENT

- Reduces storeroom traffic during plant shutdowns
- Improves cost control by providing materials directly to on-site contractors
- Gives you the ability to regulate employee access
- Reduces needed warehouse space with outside storage usage
- Single PO purchases with a blanket agreement to have material replenished as needed.
- Eliminations of damaged material and loss of product

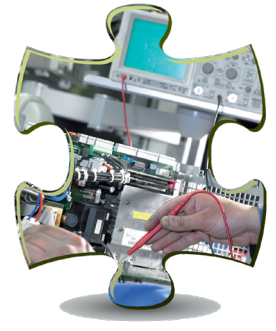

VENDING MACHINES

- Help you implement inventory management efficiently and effectively across your entire company
- Provide point-of-use information for products
- Employees have immediate access to products they need by simply entering their ID
- Recordkeeping is done automatically just like a tool crib attendant
- Inventory levels are tracked, recorded and reordered at the intervals that you demand

UNIVERSAL WASTE RECYCLING

- Documented Compliance
- Easy to Order
- Easy to Use
- Expert Help Available
- Low Cost Compliance
- Reduce Administrative Burden

REPAIR SERVICES

- Certified comprehensive repairs of thousands of Rockwell Automation and Non-Rockwell products
- We pick up your defective piece of electrical, electronic, servo, and robotic equipment and manage the repair process for you.
- We return your repaired equipment
- Allows you to focus more time and energy on keeping your operations running
