
Dear Partners,

Washington State remains under a state-wide 'shelter in place' order.

Creative Motion Control, however, is required to continue operations as a critical supplier to key exempt customers. Therefore we are able to continue to provide the highest levels of service possible to all of our customers.

A portion of our staff working from home, including engineering and administrative staff. Another portion of our staff is home because they are in a high risk group or they are taking care of children or others in need of care. The rest of us are working in multiple shifts and taking every precaution to provide a safe and healthy workplace for all of our employees.

As of this email, CMC's rate of manufacturing and assembly has decreased slightly, but all operations remain functioning. I am extremely proud of the commitment and dedication to you and your customers the CMC team has shown.

During these challenging times we will continue to work diligently to serve you and your customers to the best of our abilities.

Don't hesitate to contact me at any time if there's anything I can help you with.

Please stay safe and healthy.

Chuck Gillam
