

Inxpect

COVID-19 updates

Since the beginning of the Covid19 crisis, the Inxpect team has transitioned to working from home.

While most of our departments are fully operational, our phone lines and delivery services are working on a reduced schedule.

You can reach us by phone every working day, from 9am to 1pm CET.

At other times, please feel free to reach out to our sales and customer support teams by email.

In this time of crisis, we also want to express our gratitude to the medical community that is battling a difficult situation near our home in Lombardia and, unfortunately, throughout much of the world.

At Inxpect we are doing our part, which is keep doing what we do best: innovative R&D, commitment to excellence and serving our customers, thanks to the professionalism and flexibility of our main asset, the Inxpect team.

We are sure that we will weather this, and come out stronger, together.
