

To Our Valued Partners,

We're experiencing an extraordinary moment in our country and around the globe – an instance where both our professional & personal lives have been altered. We hope you, your associates and your families are finding ways to navigate these challenging times. As a supplier that supports an essential infrastructure industry as defined by the Federal Government, we are maintaining our normal work schedule in accordance with CDC guidelines around workplace health, safety and social distancing. The health and safety of our associates is paramount. Our three Distribution Centers are open, and we continue to ship material across America. We also have contingency plans in place should any of our Distribution Centers become impacted.

We want to provide reassurance to our partners in “Building a Better Brand” that we have and will continue to take every step we can to minimize any disruption to our supply chain. Dottie is a globally sourced brand with the ability to procure product from multiple countries of origin which is well suited when there are unforeseen circumstances such as the Coronavirus. We have the logistics, experience and inventory on hand to meet your needs. We are here to help, and we will continue to be vigilant in monitoring the situation and providing you with updates as needed.

Thank you for your loyalty and continued support.

Cordially,

The L.H. Dottie Management Team
