

Dear Valued LUTZE Partner:

We are beginning to see certain parts of the country taking extended measures to help mitigate exposure to COVID-19. Some of those measures include areas considered as embargoed, meaning no shipments are allowed. Carriers are beginning to learn which areas are considered 'embargo' areas and sharing that information (embargoed zip codes) with their customers.

This is having an impact on LUTZE's outgoing shipments. LUTZE Inc is continuing to do business as usual under these unprecedented circumstances. Our goal is to keep shipping LUTZE products on time to you and to your customers.

Please notify us if you or your customers are in an embargoed area, are closed or not accepting deliveries, including drop ship locations, so that we can proactively manage your order and materials for future shipment once deliveries can resume.

Please contact LUTZE Inside & Support sales@lutze.com or calling 800-447-2371 if your order requires any delivery changes.

Thank you

Best Regards,

Brad Meeks
